

# BIANCE ACOUSTICS

Loudspeakers...defining the art of sound™

## SPEAKER PLACEMENT

### **NOTES:**

The Cubes should be located at ear level and toed in so that the listener is directly on axis with the center of the speaker driver. They may be placed on stands, or a meter bridge. Secondary to the loudspeakers, room acoustics is the largest factor influencing sound reproduction, so the above diagram is just a general guideline. Let your ears be the arbiter...
